

ONCE A CROP APPLICATION FOR INCREASED CROP YIELDS!

*New, Breakthrough
Product!***

Revolutionary, Smart Polymer Soil Conditioner

APPLICATION INFORMATION

Turf - Apply 1.5 - 2.0 oz. per 1,000 sq. ft. of turf.

Tree and row crops - .5 to .75 gallons per acre by injection into irrigation system.

For tank mix spraying or drenching - 1:1,450 gallons yields same results.

For best results apply to wet soil. Water in thoroughly with at least 1/10 inch of water to insure Growers' Edge™ is carried completely into the soil area.

For optimum performance and utilization of smart polymer translocation (getting the polymer evenly distributed throughout the soil column), re-water within 48 hours with additional 1/10 inch water. Once in place, Growers' Edge™ will hold the fertilizer and water in the important area of 3 to 7 inches of the soil column, allowing the plants to uptake both moisture and nutrients more easily and helping to provide greater yields.

***Contact your authorized dealer or representative for test and field trial test results. **Patent pending.**

CAUTION: KEEP OUT OF REACH OF CHILDREN. MAY BE HARMFUL IF SWALLOWED. IN CASE OF CONTACT WITH EYES FLUSH WELL WITH WATER AND HAVE A PHYSICIAN CONTACT MANUFACTURER. IF SWALLOWED, CALL A PHYSICIAN.
